

God, who is hated

Game Manual

Goal and controls

In this game, you have to move the Sun using LEFT and RIGHT arrow keys and destroy the trucks of people using meteors (shoot a meteor using UP arrow key or CTRL key). You mustn't let the trucks go into the Tower. You can also use special god powers – lightning, rays, meteor showers, tornados or nights. Use them pressing Q,W,E,R,T. Each special power has its unique effects and each one is much stronger than a simple meteor. The trucks bring energy to the Tower. If there is more Tower's energy than Sun's life, you lose. If you survive the time limit, you win. You can buy special god powers between levels.

The story

A new god appeared on the Earth. People think he is bad and he wishes to destroy people. So, they build big towers, that can shoot down the God. The God only defends himself and he has to destroy the Towers.
